

Eurovent SNOW STOPPER

Snow-stopping grate made from galvanized steel. It can be used to protect from large amounts of snow coming down from the roof – the grate stops part of the snow on its way down. This solution also protects the gutter from tearing off. The snow-stopping grate should be mounted using a special support bracket. It is suitable for roofs with 15° to 60° slopes.

Advantages:

- protection against corrosion
- fast and easy installation
- universal solution
